WASHINGTON.

[FROM THE ASSOCIATED PRESS.] WASHINGTON, May 19. Senators Revels and Harris attended the wedding of Mr. Downing's daughter. The affair went off very happily. There was a large attendance.

The revenue assessments of North and South Carolina show an increase of twentytwo ner cent.

In the Southern Pacific bill, as reported by the Senate committee on Tuesday, a mistake in printing occurs. Where it is provided that fifty miles should be built in the second year at the western end of the road, it should read "at the eastern terminus." The question of gauge was carried in committee by a bare majority. It is generally understood that the entire provision regarding gauge will be struck out of the bill, thus leaving it to be determined by the company, or the five feet gauge substi-

SENATE.

In the Senate a resolution requesting the President to open negotiations with England with a view to the annexation of Canada to the United States, was placed on the calendar. A memorial was presented representing that the naturalized citizens of Rhode Island cannot vote unless worth one hundred and our dollars of rear estate, and asking a v therefor.

ils to appoint an appraiser of merchandise Mobile and to reduce taxation were report-

ed favorably. The Fifteenth amendment bill was considered. Hamilton, of Maryland, said that it would practically repeal all registration laws, and that if it passed no one would be safe in talking to a negro before an election, because he would have the right, upon his unsupported affidavit, to cause the arrest of any man he might charge with supposed interierence with his rights. Schurz admitted the truth of the Democratic charge that his party bad revolutionized the constitution by the Fifteenth and other amendments, and argued that the change in governmental policy caused by the war was a revolution that secured individual rights in the States. Pool took the position that Congress could constitutionally enter a State and deal directly with the rights of electors; that the prerogatives of citizenship could not safely be left to the caprice of States. Howard said the right of the black man to vote in the South would, for half a century yet, be the only safeguard for peace and national authority. If the rebel leaders ever came into power again, the war would have to be fought over. The South had lost their property and their boasting spirit, but five generations yet to come would not lose their unquenchable hatred of Northern society and Northern government. In case of a foreign war, we would see a disposition at the South to join the enemy so as to put down this government they so hated. He would never agree to universal amnesty, for Jefferson Davis and the rebel ringleaders would come back to rehatch and

enemies of his country. The Judiciary Committee presented a report on the inquiry as to the corrupt means used to influence senators on the Georgia bill. The testimony is voluminous.

revivify the lost cause. Personal pride would

never allow him to see his name on the same

list of yeas and nays with perjured traitors and

HOUSE.

In the House, Conner, of Texas, introduced a resolution instructing the Committee on Foreign Affairs to inquire and report what meas-_ures were necessary to force Mexico to observe harboring American outlaws. Referred.

The Committee on Military Affairs reported a bill for the sale of certain United States property, including that at Fayetteville, N. C., Mount Vernon, Ala., and Chattahoochee, Fla.; also certain captured property at Shreveport, La., Marshall and Jefferson, Texas, and in Marion and Jefferson Counties, Texas. Passed. In the House a very bitter discussion arose

on the Appropriation bill in the feature providing for a minister to Rome. Religion entered very strongly into the discussion, and sharp passages occurred between Bingham and Vorhees, each claiming that the other was playing for Catholic votes. Banks made a personal explanation, defend-

ing the San Domingo treaty, holding that our safety depended upon the acquisition of the neighboring islands.

CUBA.

HAVANA, May 19.

It is stated that the brothers of General Arango, who abandoned the revolution, have been imprisoned by the insurgents. Other accounts say they were executed. Arango, at the head of a column of troops, has gone to see about the matter.

MEXICO.

CITY OF MEXICO, May 11. VIA HAVANA, May 19. Trinidad Garcia, a revolutionary Congressman, has been turned over to the courts for trial. The revolution is nearly ended. The followers of Pedro Martinez, five hundred strong, have abandoned him. The bandit Bravo is still in the field with six hundred fol-

A heavy earthquake occurred here to-day No particulars.

THE PRESBYTERIANS.

PHILADELPHIA, May 19. The General Assembly of the United Presbyterian Church assembled this morning. The proceedings were opened with prayer by the Rev. M. W. Jacobus, of Alleghany, Pa., moderator of the last Old School Assembly, which was followed by a sermon on "One Spirit and One Body, the Head of the Christian Church," by the Rev. P. N. Fowler, D. D., of Utica, N. Y., moderator of the last New School Assembly. About five hundred delegates are in attendance, and the proceedings were of the utmost interest.

A SQUABBLE WITH CANADA.

COLLINGWOOD, May 18. The steamer Chicora arrived at 7 o'clock this evening, having again been refused permission to pass-through the Sault St. Marie Canal. Colonel Bolton, commanding the British forces, waited on General Cooke, in command of the district, and asked the intention of the American Government with regard to the Chicora. General Cooke replied : "My instructions are absolute; nothing whatever connecessa with the Red River expedition can pass the canal—I rust therefore absolutely refuse to allow the Chicora to pass."

COLUMBIA.

State Convention of Teachers-A State Association Organized-Postponement of the Blue Ridge Railroad Bond Injunction Case.

[SPECIAL TELEGRAM TO THE NEWS.]

COLUMBIA, May 19. The State Convention of Teachers met tonight at the hall of the Nickerson House. Mr. Duckett, of Newberry, was called to the chair, and a State association organized, Mr. H. S. Thompson being elected president. The association then adjourned until to-morrow.

The Blue Ridge Railroad bond injunction case has been postponed a third time until tomorrow, on account of the indisposition of Judge Melton.

EUROPE.

The Thunderer on the Morality of Wall street-The Victory of the Sappho-Spain. LONDON, May 19.

The Times has a remarkably bitter editorial article on the alleged mismanagement of Erie Railroad affairs, and the course pursued in relation to shares in the stock market. The writer asserts that the standard of commercial morality is lower in the City of New York than anywhere else in the world. What here in England would be deemed crimes, are there regarded as masterpieces of financiering. It becomes the American people to purge themselves of this reproach, though it will be a task equal in difficulty to the abolition of slavery.

The American yacht Sappho, throughout the recent match, was handled by an English captain and crew. The telegram published on Tuesday announcing the award of the prize to the Sappho was premature. It was late yesterday afternoon when the Sappho was pronounced the winner. The judges arrived at this conclusion from the Cambria's having disregarded official instructions regulating the race, but which were faithfully obeyed by the Sappho.

The Telegraph has a sensational paragragh giving the strength and plans of the Fenian

organization in this country. The London News published to-day, from Spain, important though conflicting dispatches which were received from Madrid direct, and report that the Council of Ministers determined to confer upon Serrano royal attributes, if no candidate for the throne is found within a reasonable time. Another of the Continental news agencies have just forwarded telegrams to the effect that the Regency will thrust the crown upon Espartero in default of any other solution of the question. It is believed in some quarters that his resolution to decline the crown is not absolutely final.

TORONTO, May 19. The Globe and Telegraph have strong articles in favor of building a canal on British ground around Sault St. Marie, and that privileges now enjoyed by American vessels in Canadian canals shall cease until the question at issue is adjusted.

More Arrests in Paris.

PARIS. May 19. The police made several more arrests to-day of persons believed to be connected with the egicide plot. Some houses were searched and more bombs found. The bullion in the Bank of France has increased thirteen million francs.

A CHAPTER ON DO-NOTHINGISM.

"If the people of the United States should no be free and happy, the fault will be entirely their own."—Washington.

TO THE EDITOR OF THE NEWS

Excuse me, I am not in the habit of dabbling in politics, but the times seem to require every man having any, the least, regard for the wellbeing or doing of his State to speak out, and not play the part of do-nothingism or masterly inactivity, as some of the conductors of the press are apparently sliding into. For aught we know, they may be doing well enough as matters now stand, and would say "let well enough alone;" but not so with the people, the enough alone;" but not so with the people, the taxpayers of our State, by whom we trust their advice will not be taken. Did you ever know a general to go into a fight with the fear he would be whipped, to gain a victory? Or, to descend lower in comparison, did you ever see a teamster stall at the foot of a hill, before putting the strength of his team to the test, get to the top, without more prompt and reliable help than we may reasonably expect from foreign immigration? Good enough, if we had them here, but a long time to wait for had them here, but a long time to walt for had them here, but a long time to wait for help, surely. A forlorn hope, that may suit the taste of do-nothings; but not you, your humble correspondent, nor, as we hope, a great majority of the people, both white and black, of our down-trodden State. Bo-noth-ing, indeed, for fear of what? Have we any-thing more to fear than has already been in-flicted on us—than what we have borne and flicted on us—than what we have borne and are now bearing? Have we anything to lose in the game? We think not. Then, why gently fold our arms and submit to all the indignities and oppressions that our opponents are heaping upon us? God forbid! Let us make a 'long pull, a strong pull and a pull altogether," both white and colored, to surmount the difficulties and oppressions that are weighing us down—crushing us to the earth. Let us go to work under whatever name you please, except the do-nothing. We have nothing to lose, but much to gain, with the assistance of good men and true, be they Radicals, Conservatives or Democrats, whites or blacks—we invite all to come to the rescue at once,

-we invite all to come to the rescue at once, and not wait for immigrants or do-nothings to relieve us. relieve us.

We are greatly pleased with the course The
News has chalked out for us to pursue, and
which has been so ably advocated by very
many journals of our State.

AN OLD CITIZEN.

Pendleton, S. C., May 17. ON THE PINNACLE.

A Thrilling Scene-Three Men Stand upon the Cross of a Spire.

Considerable excitement was created in the vicinity of the Cathedral in Cincinnati, one day last week, by the daring feats of three

workmen engaged in repairing the lightningrod. The Times says: For some time past the lightning-rod attached to the spire has been out of order, and some repair became necessary to render the steeple safe. The contract for this work was let out to Mr. J. R. Weston, who promptly took the job in hand, and, assisted by two workmen, John Sherrell and Milton Campbell, proceeded yesterday afternoon to fulfil the same. About three o'clock the trio began the work of scaling the steeple. Beginning at the base, just above the face of the clock, they be-gan erecting short ladders, one upon the top

of another. As soon as one ladder was placed in position and firmly lashed to the steeple, another was attached to the top, and so on in this way the bold workmen proceeded until the very sum bold workmen proceeded until the very summit of the spire was reached. Some ninety feet of ladders were used in this way. As soon as the perilous ascent began, a crowd commenced assembling in the street below, and by the time the men of nerve had reached the top some five or six hundred spectators had gathered about the corner of Eighth and Plumb, all watching with breathless anxiety. At this innextre the interest become intense

uncture the interest became intense

perhaps, was the only one who was free from fear and trembling. Many turned away pale and sick with the excitement and strange emo-

tions produced by the sight. Having completed his work, the bold artisan and his companions quietly began the descent, and after due time reached the ground in

THE METHODISTS.

General Conference of the Methodist Episcopal Church, South.

During last Tuesday's session of the conference at Memphis, a large number of reports of committees, of no general importance, were introduced and laid over.

Memorials from Louisville and St. Louis, in reference to the removal of the "Book Concern," were reported back for action, and after lengthy discussion withdrawn, the Baltimore delegation insisting on its removal to that city in a protracted debate, during which Dr. Bond, of Baltimore, intimated that the "Book Conof Baltimore, intimated that the "Book Con-cern," like an old ship, if moved, would fail to pieces; that its condition would not bear in-vestigation, which was repelled by Drs. Red-ford and Green. The whole question was finally referred to a special committee of nine. After considerable debate on the reports of the Committee on Education, the following the Committee on Education, the following resolution from the minority report was

adopted: Resolved. That we endorse the action of the last General Conference in reference to a Biblical course in connection with our existing olleges, as the best available means for train ing young preachers.

THE WEATHER AND CROPS.

Newberry.

The Herald says: "We learn that from present appearances the yield of wheat in our district and above will be immense. It is beleved that flour will not command more than six dollars per barrel, during the summer. Notwithstanding the late seasons, so adverse to cotton planting, the young plant comes up with a boldness and stoutness that is somewhat unusual, and there are some very fine stands. Barring the injury that the dryness does to gardens, and the back set to cotton planting, no harm is apprehended to field crops. Wheat harvesting it is hoped will go crops. Wheat harvesting it is hoped will go bravely on, and with rains a little later, cot-ton and corn must push forward luxuriantly." Sumter.

The News says: "We are suffering from a long continued drought. On Monday night the thunder thundered, and the lightning lightened—but no rain came out of it. Really, the

Williamsburg. The Kingstree Star says : "There are great complaints from all portions of the district on account of the cool and dry weather. The cold nights have been very injurious to the cotton that is up; and that which is not already up remains in the ground for want of sufficient moisture to cause it to germinate. The farmers generally, we learn, have their lands in fine condition, and are making vigorous effort to secure a good harvest. The only thing necessary to make their crops flourish is the want o

rain, which has been for some time and is still greatly needed in this section."

THE JUNE CONVENTION.

The Policy of Prompt Action.

[From the Columbia Phoenix.]

In to-day's issue, our readers will observe a communication which comes to us from the upper part of the State. The point made by the writer we have no desire to decline putting before the public. It is for the June Convention to organize the mode of action for political improvements in this State. Let the people meet and reason together in convenpeople meet and reason together in conven-vention, and let such views as those suggested by our correspondent and others receive a fair and dispassionate consideration. Whilst fair and dispassionate consideration. Whilst we, as before, are now in sympathy and in principle with a liberalized Democratic organization, we shall be found in accord with any organization that shall be adopted by the men of the State to energize and organize a canvass in opposition to the present corrupt regime.

We shall be found to approve whatever shall be adopted in the line of effective and earnest action. We desire to lift south Carolina up and open wide our gates to the settler, the im-

and open wide our gates to the settler, the immigrant and the capitalist. We care not how this is done, provided the means are practical, efficient and honorable.

Of this, however, we feel sure, viz: That our mode of procedure should be prompt, spirited and aggressive. Our correspondent regards us as hasty in assuming that this or that man is to be the nominee of the Radical convention. In reply, we have this to say. that man is to be the nominee of the Radical convention. In reply, we have this to say, that, in our judgment, it is always advisable to reach as speedily as possible the ultimate analysis of a matter, and equally advisable, when satisfied upon the point, to base action thereupon. We do not assume to be wiser in our day and generation than others. But we do often reach conclusions in advance of the actual developments of time, and in that event we become responsible for our judgment, and we become responsible for our judgment, and

we become responsible for our judgment, and stand or fall according to the result.

We are by no means satisfied that it is good policy for us to wait and build our hopes and plans upon the contingency of a split in the ranks of our political foes. We do not regard it good policy thus to stand aloof and refer our reform work to future accidents. We know reform work to inture accidents. We know that it is the tendency of many men, and particularly of weak or unprincipled men, to gravitate towards the majority. But we also know that it is a spirited, moving and aggressive army that gathers recruits and has few deserters. The minority in South Carolina must grow into a majority by fidelity, persistence and forward movements. must grow into a majority by fidelity, persistency, endurance and forward movements. In ancient times a brave man, struggling with the storms of Fale, was deemd a spectacle pleasing to men and gods. In all times, help comes to those who help themselves, and a minority that is faithful and active, has truth and justice and right on its side, must ultimately win. Hence, as we have before expressed ourselves, let our mode of political action be active and progressive. Let the June Convention initiate action. Put out its candidates and sustain them. As we under-stand it, the opposition in South Carolina want to put before the people no defeated aspirant in the Radical Convention. The men that the opposition desire to sustain should go before the State with the imprimatur of an original and a complimentary selection. This will give tone to the canvass, and this will give the elements of possible success

THE PLOT AGAINST NAPOLEON.

Interesting Details.

Notwithstanding grave doubts have been expressed as to the genuineness of the reported plot to assassinate the Emperor Napoleon, our foreign files contain details which disclose that a most formidable conspiracy has for a long time been forming under the immediate charge of one Baury, the principal agent of the plot, a young fellow of some twenty-two years of age, born in Spain, of French parents: a man of energetic and resolute character, who, by changing his residence daily, long eluded detection.

Expert detectives, however, after two days Expert detectives, however, after two days of vigorous search, discovered not only the whereabouts of the culprit, but everybody with whom he was in communication. At the time of his arrest he had just alighted from his curriage and turned his steps toward a house of ill-fame, where he had passed the preceding night. Just at that moment the commissary night. Just at that moment the commissary of police, who had been following him from early morning, went up to the conspirator and addressed him by his Christian name, and while Reaching the very apex of the steeple, one of the men crawled up on the cross which surmounts it and stood upon its very top. The other two stood beside him upon the transverse concerted signal, and several of his depoties,

beam of the cross. The central figure, holding to the slender lightning rod proceeded to remove the point and replace it with a new one, while at the same time he adjusted the insulators, and did such other work as was necessary. The crowd in the street watched the man on the dizzy height, with but one misstep between him and eternity, and were perfectly horrified. It made the blood curdle to contemplate the danger which surrounded the man in the clouds, as it were, and of all the crowd, he nerhans was the only one who was free from proceeded to reduce the hands of the culprit and pinloned them behind his back. They took from the prisoner a letter from Flourens, also as ix-shot revolver, and a rough draft of a note written by himself and addressed to Flourens, in which he asked for money, and added: "The amputation will take place on the 29th, in the evening. I am ready." Flourens also recommends him to disguise himself as a soldier, in order to fire on the Emperor. The bombs, by which means the murder was to be accommended. in the City of Charleston. which means the murder was to be accomplished, prove to have been of the most dan-gerous and deadly description ever known, even rivalling those invented by the celebrated Orsini. Each bomb is divided perpendicularly into two halves, which, when united, form a figure somewhat resembling a thick case with a hole in the centre. The upper and lower cavities are ribbed inside and plerced with eighteen holes, to which can be adapted nipples and caps, or nails with the heads inside. The interior of this terrible instrument contains four glass tubes, a quarter of an inch in diameter and four inches in length, which are filled with fulminating powder. The mere shock of a fall would be sufficient to break the glass and produce an explosion. The amount of explosive material which each one of the bombs is capable of containing is sufficient to spread destruction in a circle of at least thirty yards around, and the force with which the frag-Each bomb is divided perpendicularly abella Sheopy

THE VATICAN COUNCIL.

Important Decree on Catholic Faith.

We have now an approved translation of the first "Dogmatic Decree of the Council of the Vatican." It is the decree of the assembled Fathers on the subject of Catholic faith, and possesses, consequently, great inferest. The ranslation has been, carefully revised for the Catholic World magazine by some of the Fathers attending the Council. The Œcumenfcal paper is of considerable length, and the substance of it is given at the close in the following canons:

FIRST-OF GOD, THE CREATOR OF ALL THINGS. First. If any one shall deny the one true God, creator and Lord of things visible and invisible; let him be anathema.

Second. It any one shall unblushingly affirm that besides matter nothing else exists; let him

be anathema.

Third. If any one shall say that the substance or essence of God, and of all things, is one and the same; let him be anathema.

Fouth. If any one shall say that finite things, both corporeal and spiritual, or at least spiritual things, are emanations of the Divine substance:

Betsey Corcoran, Miss By Miller, Miss

stance;
Or that the Divine essence, by manifestation or development of itself, becomes all things;
Or, finally, that God is universal er indefinite Belng, which, in determining itself, constitutes all things, divided into genera, species and individuals; let him be anathema.

Fifth. If any one do not acknowledge that the world and all things which it contains, both spiritual and material, were produced in all their substance by God out of nothing;
Or shall say that God created them, not of His own will, free from all necessity, but through a necessity such as that whereby He loves Himself;
Or shall deny that the world was created for

Or shall deny that the world was created for the glory of God; let him be anathema. SECOND-OF REVELATION.

First. If any one shall say that certain knowledge of the one true God, our Creator and Lord, cannot be attained by the natural light of human reason through the things that are made; let him be anotherma.

Or shall deny that they are inspired by God;

THIRD-OF FAITH. First. If any one shall say that human reason is in such wise independent, that faith cannot be demanded of it by God; let him be

anathema. nathema. Second. If any one shall say that divine faith does not differ from a natural knowledge of God, and of moral truths; and therefore that for divine faith it is not necessary to believe revealed truth on the authority of God who

reveals it; let him be anathema.

Third. If any one shall say that divine revelation cannot be rendered credible by external evidences, and therefore that men should be moved to faith only by each one's interior ex-perience or private inspiration; let him be an-

athema. Fourth. If any one shall say that no miracles Fourth. If any one shall say that he universe can be wrought, and therefore that all accounts of such, even those contained in the sacred Scripture, are to be set aside as fables or myths, or that miracles can never be known with certainty, and that the divine origin of Christianity cannot be truly proved by them;

Christianity cannot be truly proved by them; let him be anathema.

Fifth. If any one shall say that the assent of Christian faith is not free, but is produced necessarily by arguments of human reason; or that the Grace of God is necessary only for living faith which worketh by charity; let him be anothema.

anathema.
Sixth. If any one shall say that the condition of the faithful, and of those who have not yet come to the only true faith, is equal, in such whee that Catholics can have just reason from withholding their assent and calling into doubt the faith which they have received from the teaching of the church, until they shall have completed a scientific demonstration of the credibility and truth of their faith; let him be anathema.

FOURTH-OF FAITH AND REASON.

First. If any one shall say that divine revelation includes no mysteries, truly and properly so called, but that all the dogmas of faith may, with the aid of natural principles, be unmay, with the and of lateral presence of derstood and demonstrated by reason duly cultivated; let him be anathema.

Second. If any one shall say that human sciences ought to be pursued in such a spirit of freedom that one may be allowed to hold, as true, their assertions, even when opposed to revealed doctrine; and that such assertions may not be condemned by the Church; let him

be anathema.

Third. If any one shall say that it may at Third. If any one shall say that it may at any time come to pass, in the progress of science, that the doctrine set forth by the church must be taken in another sense than that in which the church has ever received and yet receives them; let him be anathema. Wherefore, fulfilling our supreme pastoral duty, we beseech, through the bowels of mercy of Jesus Christ, all the Christian faithful, and those especially who are set over others or those especially who are set over others or have the office of teachers, and furthermore we command them, by authority of the same our God and Saviour, to use all zeal and industry to drive out and keep away from holy church those errors, and to spread abroad the pure light of faith.

And whereas it is not enough to avoid here-tied prayty, unless at the same time we care

And whereas it is not enough to woon nere-tical pravity, unless at the same time we care-fully shun those errors which more or less ap-proach to it; we admonish all that it is their duty to observe likewise the constitutions and decrees of this Holy See, by which wrong opinions of the same kind, not expressly herein mentioned, are condemned and forbidden.

> GREAT GERMAN BITTERS THE BEST TONIC AND INVIGORATOR KNOWN

They are unsurpassed as a cure for Dyspepsi and General Exhaustion.

A SURE PREVENTIVE OF FEVER AND AGUE, BILIOUS, REMITTENT AND INTER-

IT IS INVALUABLE TO FEMALES!

MITTENT FEVERS.

'TIS A CORDIAL FOR THE AGED, AND A SURE PROTECTION AGAINST ALL MALA-RIOUS DISEASES.

It is undoubtedly the best Medical Cordial ever offered to the Public!

SAVANNAH, March 16, 1870.

MESSRS. JACOB LIPPMAN & BRO., Savannah, Ga.:

Gents—I have before me your esteemed letter of
the 14th instant, containing various documents
relative to your "German Bitters." After a careful examination I must confess that your Bitters
is really what you represent it to be, an old German recipe of Dr. Mitcherlich, of Berlin, Prussia.
It will no doubt be excellent for Dyspepsia, General Debility and Nervous Diseases, and it is a
good preventive of Chilis and Fevers. I find & to
be the most delightful and pleasant stomachic.

I remain, yours truly,
(Signed)

AUG. P. WETTER.

MESSRS. JACOB LIPPMAN & BRO., Druggists, Savannah, Ga.:

Gentlemen—I have introduced your Great German Bitters here to my customers and friends, and I find better sale for them than any I have ever kept before. Those who have tried them approve of them very highly, and I do not hesitate in saying that they are far superior in value to any other Bitters now in use.

Yours, respectfully,
(Signed)

W. KIRKLAND.

We refer, by permission, to Doctors King, Sullivan, Duncan, and other leading physicians of Savannah; to ex-Mayor Anderson, John L. Villalonga, and other distinguished citizens of Savannah.
